Fire Risk Assessments

We are here to help you comply with the Fire Regulations.

**People.
Properties.
Reputations.
Protected.**

Before the Fire Officer calls, did you know...

If you are the 'Responsible Person-the Duty Holder' for Fire Safety compliance, YOU are LEGALLY OBLIGED to be in possession of an up to date, robust Fire Risk Assessment for your organisation underpinned, by an on-going Fire Management System.

How to COMPLY with the Fire Regulations

With in excess of 38 years' operating within the Fire Industry I can personally help with your Fire Risk Assessments, if...

- You don't have a Fire Risk Assessment
- You have had one done by your own organisation but you feel that it may be inadequate
- You have had one done by an alternative provider but the fire authority has led you to believe that it is not suitable or sufficient
- You are unsure if you comply with the regulations
- You have outstanding compliance actions and you need advice on the best course of action to take to achieve compliance

How we COMPLETE your Fire Risk Assessment

- We send an accredited Fire Risk Assessor to you.
- Our Fire Risk Assessor will compile and complete a report about all matters relating to fire safety.
- We will issue a report highlighting satisfactory areas along with areas that require attention or do not comply with the Fire Regulations.
- We will discuss your action areas with you and plan a course of action.
- Provide access to your online report in our secure portal.

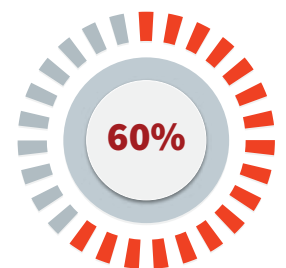

Fire never compromises. Neither should you.

Can I do my own Fire Risk Assessment?

YES. But it is almost certain that professional Fire Safety expertise will be required - DIY efforts or using inexperienced people is very UNLIKELY to reach the required standard. With our help we will tell you what is required to achieve compliance.

Don't leave fire regulation compliance to chance, talk to our select team of experienced specialists today.

Don't leave problems alone...leave them to us...

Did you know, that 60% of SME's who have experienced a fire never recover.

Which organisations require a FIRE RISK ASSESSMENT?

Fire Compliance Check

**Employers.
Managers.
Owners.
Protected.**

Are you vulnerable
and wide open to
enforcement action,
even prosecution?

Can you prove you are complying with Fire Regulations?
Protecting your companies 'Reputational Risk' can be a challenge, however, you can rely on FCMS whom have a proven track record of creating cost effective results and are confident of resolving any issues identified during the risk assessment process.

Try our simple 8 point COMPLIANCE CHECK. How well do you comply?

1. Do you have a suitable and sufficient Fire Risk Assessment?
2. Was the Fire Risk Assessment completed by a 'Competent Person'?
3. Have you implemented the significant findings of the assessment?
4. Do you have the required fire safety documentation:
(Fire Policy, Emergency Plan & Fire Evacuation Procedures)?
5. Where appropriate, are you carrying out adequate fire training to your workforce?
6. Do you have evidence that you are managing your fire safety regime to the required standards?
7. Do you have up to date records for the maintenance of fire equipment and other fire safety regimes
(e.g. fire drills, testing of fire alarms, training etc.)?
8. Do you periodically review & revise the Fire Risk Assessment as required?

Call me to discuss your answers

If you have answered **NO** or you **DON'T KNOW** to any of the questions then it is highly probable **YOU WILL NOT BE COMPLYING WITH THE FIRE REGULATIONS** leaving you vulnerable and wide open to enforcement action, and even prosecution.
