**Look.
Listen.
Learn.
Legal.**

Learn about your compliance responsibilities, how to avoid enforcement action & get regulatory compliance.

Most organisations believe they are on top of their game and complying with the Fire Regulations, but...**how do you really know?**

What benchmarks are you using?

By attending our workshop you will become informed. You can also share 'cross-site' experiences, thoughts and aspirations with other employees but moreover, learn from me, Pete Moulson, a leader in this field who will provide you with sufficient knowledge for you to understand your compliance responsibilities.

The truth is, many companies are vulnerable to enforcement and fall short through a lack of awareness as to what compliance with the Fire Regulations really means.

When you leave, you will go away with the confidence, knowledge and awareness of what a 'Peace of Mind' Fire Strategy really looks like.

Learn about your compliance responsibilities

We can come to your business where representatives can attend our workshop to learn from experts about your compliance responsibilities, how to avoid enforcement action and get regulatory compliance.

Why Attend?

Now, post Grenfell there is even more focus & a policy of zero tolerance for Responsible Persons and organisation's failure to fulfil their legal obligations with the enforcement register being as prolific as ever. The workshops are hosted by Pete Moulson (a speaker at IFSM events), an expert with over 38 years operating within the Fire Industry.

During the last 3-5 years, unprecedented levels of Enforcement Action has been taken with Courts issuing significant awards including unlimited fines and custodial sentences.

Don't be NEXT...
